Subject:

CNHRPC Transportation Data Collection Program - 2013

Date:

February 20, 2013

The Central New Hampshire Regional Planning Commission (CNHRPC), as a part of its Regional Transportation Data Collection Program, is contacting Boards of Selectmen, Planning Board Chairs, Road Agents, Public Works Directors, and Municipal Engineering & Planning Departments to solicit traffic count requests for the 2013 counting season. Please use the enclosed request form and return it to CNHRPC by *Friday March 29, 2013*.

We encourage you to coordinate with all the appropriate boards, agents, and/or departments in your community so that requests are not duplicated. To assist you in choosing count locations, take time to consider any potential or recent developments in the region that could affect traffic in your community. In addition please review the traffic count history completed by both CNHRPC and the NH Department of Transportation (NHDOT) in the recent past. To create a comprehensive database for your community it is recommended to alternate count locations yearly and consider what locations should be repeated in the long term. Historic traffic data is available at http://www.cnhrpc.org/gis-a-data/traffic-count-data.html. Please limit the traffic count requests to *five (5) priority locations and five (5) secondary locations* per municipality.

These traffic-counting services are being provided by CNHRPC to member communities through transportation planning funding that we receive from NHDOT. If you have any questions regarding this program, please contact me at 226-6020 or via email at dwilliams@cnhrpc.org.

Thank You,

Dean Williams
